

REMARKS

This paper is being filed concurrently with a Request for Continued Examination and an Information Disclosure Statement. Claims 1-13 remain pending in the application and claims 14-65 were previously withdrawn from consideration. Through this Amendment, new claim 66 has been added. No new matter has been introduced into the application. As explained in more detail below, Applicants submit that all claims are in condition for allowance and respectfully request such action.

New Claim 66

New claim 66 comprises 3 elements. The first two elements are identical to the two elements of claim 1, with the exception that claim 66 does not recite the term “removably” before “mounted.” The last element of claim 66 recites the sole element of pending claim 6. Support for these amendments may be found throughout the Specification, including the recitation of claims 1 and 6 themselves. Applicants respectfully submit that the art of record does not teach, disclose, or suggest, the subject matter of claim 66, and therefore respectfully solicit its allowance.

Claims 1-14

Applicant respectfully submits that claims 1-14 are allowable over the art of record for at least the reasons set forth in Applicant’s Appeal Brief filed on April 9, 2009 and respectfully solicit the allowance of claims 1-14.

CONCLUSION

All rejections having been addressed, applicant respectfully submits that the instant application is in condition for allowance, and respectfully solicits prompt notification of the same. Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the number set forth below.
